Artist Statement

**«EXPLORING WITH HIDDEN FINDS OF THE EARTH
WORKING WITH LIGHT - TIME - REFLECTIONS»**

«VIEWING OF LAYERS - MAKE THE UNSEEN VISIBLE»

«Borders and surfaces have a common ground. Surfaces are ends and entrances at the same time. For me, discovering depths means penetrating through the surfaces.

It is becoming increasingly difficult to listen to our guiding principles, to develop them and to continue to cultivate them. Connection to nature, intuition and empathy for the natural are lost. As a result, I'm trying to dig deeper through the layers to understand them.

To be part of the wider world and nature, to become aware of its signs, it takes both the subconscious and the imagination. The sighting of the layers, implemented through intuition and craftsmanship, forms the basis of my form of expression.»
